PEER PRACTICUM

David K Hiranaka, MD, DMD | Donna Hiranaka  
donna@drhiranaka.com | 808.322.0202 / 808.938.4194

**Mark Murphy, DDS,  
DABDSM, FAGD**

**Live Lecture**

*Lecture, up to 4 hours  
Oral Medicine, Oral Diagnosis,  
Oral Pathology  
AGD Subject Code 730*

# Aug

## 2021 Dental Sleep Medicine Update: Why NOW is the Time to Treat Sleep in Dentistry

This course will survey the current landscape of medical and dental treatments for sleep apnea and how health policy, regulatory forces, and economics are making it easier than ever to treat dental sleep medicine in the practice. Mark will cover the traditional four pillars of DSM: screening, testing, treating, and billing as well as share how recent advances in device designs, reimbursements, telemedicine, and research have changed the landscape. Dental sleep medicine has progressed and is quickly becoming a more preferred choice for treatment and better health outcomes. A simplified pathway for implementation will also be presented.

Upon completion of this session, attendees should be able to:

- Gain a better understanding of sleep related conditions and the role of the dental team.
- Develop an evidence-based matrix for oral appliance therapy.
- Assess the forces impacting and influencing this opportunity for dentistry.

**Refer to the calendar for specific dates and times.**

*Disclosure of Commercial Support: Dr Mark Murphy does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).*

# Sept

## Retirement Planning: “Stick it to the Man!”

Most Americans dream of retiring and living the good life. Sadly, when the majority reach their golden years, they find themselves financially ill-prepared. During this lecture, David will review the myriad of retirement options—IRAs, 401k, pensions, defined benefit plans, etc.

Upon completion of this session, attendees should be able to:

- Identify critical components to achieving their goals.
- Recognize what they have planned already and where to make a change to enhance outcomes.
- Properly prepare for the good life at retirement and learn how to keep the tax man away from your money and stick it to the man!

**David Engen, DDS,  
MSD**

### *Live Lecture*

*Lecture, up to 2.5 hours  
Practice Management  
and Human Relations  
AGD Subject Code 550*

**Refer to the calendar for specific dates and times.**

*Disclosure of Commercial Support: Dr David Engen does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).*

# Oct

## Battle of the Kona and Maui Clubs An Evening of Treatment Planning with Dr Sonia Leziy

This is a video-enhanced session with Dr Sonia Leziy from our World Treatment Planning Championship Symposium. Sonia has contributed a fascinating case, similar in complexity to the Stefano Gracis case planning session most of you participated in with Compleat Curriculum I. It is an anterior esthetic dilemma which challenges participants to make the choice to save or extract, and promises to provide an opportunity for spirited discussion. It received the highest ratings of all the cases presented at Symposium.

Upon completion of this session, attendees should be able to:

- Articulate arguments to defend the choice to extract and the choice to save a tooth.
- Understand resolution of an anterior esthetic problem.

**Sonia Leziy, DDS,  
Dipl Perio, FCDS(BC),  
FRCD(C)**

### *Tx Planning*

*Facilitated by Club Director*

*Lecture, up to 2 hours  
Multidisciplinary Topics  
AGD Subject Code 149*

**Refer to the calendar for specific dates and times.**

*Disclosure of Commercial Support: Dr Sonia Leziy does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).*

# Nov

## Battle of the Kona and Maui Clubs Decision Making Process to Achieve the Optimum Gingival Design in the Esthetic Zone

This presentation will illustrate management of gingival levels through a case presentation. Discussion will address the options and the decision process leading to the final interdisciplinary treatment. It will be a direct continuation of the systematic esthetic checklist we routinely advocate for simplicity and predictability. In addition, we'll talk about ceramic restoration, deciding on minimally invasive dentistry or not, and how it all pertains to the most appropriate treatment for the patient.

Upon completion of this session, attendees should be able to:

- Choose between crown lengthening and orthodontic intrusion.
- Understand the impact of minimally invasive dentistry on the final interdisciplinary treatment.

**Gerry Chiche, DDS**

**Part I: Tx Planning**

*Facilitated by Club Director*

**Part II: Q&A**

*Facilitated by Club Director*

**Lecture, up to 3 hours**

**Multidisciplinary Topics**

**AGD Subject Code 149**

**Refer to the calendar for specific dates and times.**

*Disclosure of Commercial Support: Dr Gerry Chiche does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).*

## Speed Dating with the Specialists

---

Back by popular demand . . .

Following a speed dating format, this interactive session will give you 20 minutes with each specialist before hearing the gong and moving to the next station. Specialists will share a 5-minute pearl—it might be an interesting article, clinical tidbit, practice management tip, or a new procedure. The remaining 15 minutes will be open for questions and discussions. We will culminate the evening together as a group, where the specialists will each share an interesting question or point that was brought up during the discussions.

*Upon completion of this session,  
attendees should be able to:*

- Acknowledge the newest trends in different disciplines.
- Implement practical tips into their office.

---

**Refer to the calendar for specific dates and times.**

---

*Disclosure of Commercial Support: Nadia Flores does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).*

## An Evening Interview with Stock Analyst and Wall Street's Guru on Dentistry Jeff Johnson

Jeff Johnson understands the economy and can relate this to dentistry and the affects on your practice better than anyone! From teaching ophthalmology at Harvard Medical School, to an MBA at Kellogg, to R.W. Baird Wealth Management and Investment Banking, Jeff Johnson has forged a very unique path to become the most well recognized senior stock analyst in medicine and dentistry. He has offered to spend an evening with us, digging deep into the dental industry, to set the stage for decisions we will be making in our practices as a result of changes in the dental economic landscape.

Upon completion of this session, attendees should be able to:

- Have a better understanding of the economic landscape related to the dental industry.
- Have a better understanding of how changes in the overall dental industry affect dental practices.

**Jeff Johnson, MBA**

*Evening Interview  
followed by Q&A*

*Lecture, up to 1 hour  
Practice Management  
and Human Relations  
AGD Subject Code 550*

THIS RECORDED  
PROGRAM IS  
FACILITATED BY  
CLUB DIRECTOR

**Refer to the calendar for specific dates and times.**

*Disclosure of Commercial Support: Jeff Johnson does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).*

**Dania Tamimi,  
BDS, DMSc**

**Live Lecture**

*Lecture, up to 8 hours  
Multidisciplinary Topics  
AGD Subject Code 149*

# Mar

## Understanding the TMJ and Airway

The aim of this course is to teach clinicians how to look for diagnostic clues that may indicate the presence of TMD or sleep-disordered breathing in their dental patients. Taught by Dr Dania Tamimi, an oral and maxillofacial radiologist and author of a textbook on the subject, *Specialty Imaging: Temporomandibular Joint*, the course includes a comprehensive review of anatomy as visualized on CBCT volumes. She will review the growth and development of the TMJ and how dysfunction can change the morphology of the oral and maxillofacial complex, including the airway, and how to diagnose some of these dysfunctions using CBCT. The relationship of the TMJs and airway to the occlusion will be discussed in light of bite changes that may affect the final restorative and prosthodontic outcome if undiagnosed. With correct diagnosis, the patient has a higher likelihood of a successful outcome.

Upon completion of this session, attendees should be able to:

- Understand the correlation between TMD and airway and how it presents radiographically.
- Identify the normal anatomy of the major contributors to TMD, orofacial pain, and obstructive sleep apnea.

**Refer to the calendar for specific dates and times.**

*Disclosure of Commercial Support: Dr Dania Tamimi does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).*

Implant Therapy and Beyond ...  
Current Trends for the Future

---

TO BE ANNOUNCED

---

## Nobel Biocare Special Guest

### *Live Lecture*

*Lecture, up to 6 hours*

*Implants*

*AGD Subject Code 690*

Refer to the calendar for specific dates and times.

---

*Disclosure of Commercial Support: Dr Michael Cohen is the founder of Seattle Study Club.*

# May

## Better, Faster, Stronger Direct Composites with the Injection Molding Technique

Ceramic restorations have long been considered the optimal choice for predictable esthetics and longevity. Bonding has been considered a short-term solution that can be both technically challenging and esthetically unpredictable. The injection molding technique with ultra-thin Bioclear anatomic tooth forms has created a third modality with monolithic restorations that can endure and sparkle for decades. In this course, Dr Clark will present restorative possibilities with the Bioclear method. A complete update of the science of bulk filling and cracked tooth avoidance will be presented. Two hands-on exercises will be included. First, attendees will prep, injection-mold, and finish the infinity edge, non-retentive Clark Class II. The second exercise will be treatment of mandibular black triangles.

Upon completion of this session, attendees should be able to:

- Identify potential pitfalls of layering posterior composites and understand the related science of bulk filling and heated composite.
- Understand black triangle elimination with the Bioclear Black Triangle Kit plus full injection over-molding to rejuvenate two maxillary central incisors with a mirror-like finish and invisible margins.

### David Clark, DDS *Hands-on Program*

*Lecture /workshop,  
up to 7 hours  
Operative (Restorative)  
Dentistry  
AGD Subject Code 250*

**Refer to the calendar for specific dates and times.**

Disclosure of Commercial Support: Dr David Clark is the founder of Bioclear Clinic and holds several U.S. patents integral to the Bioclear Method and Matrix System. He receives an honorarium from 3M Oral Care.

## Where Does the Rock Go When the Rock Needs Help?

## Living and Leading Yourself and Others Through Tough Times

**Bonus Course:**  
**Donna will**  
**send you the**  
**video**

**Sree Koka, DDS,**  
**MS, PhD, MBA**

*Lecture, up to 1 hour Self-Improvement*  
*AGD Subject Code 770*

Our dental degrees do not prepare us to tackle myriad challenges. In everyday dental practice and in our lives, we may be struggling to know what we should do and how we should behave with our patients, staff and loved ones. The shadow questions of what we should not do and how we should not behave add additional stress. To be successful, we need to be leaders, and as leaders, others look to us for the answers to walk them through tough times and challenges. So, during a time when we need a type of help we have never needed before, and acknowledging that leading through crisis requires a special set of skills, where do we go for this help? Join Dr Koka to learn about the tools that are available to take better care of ourselves.

Upon completion of this session, attendees should be able to:

- Describe the impact of stress on maintaining overall health.
- Demonstrate the importance of permission.
- Identify ways to build resilience that prevent or address overwhelming stress.

THIS RECORDED  
PROGRAM IS  
FACILITATED BY  
CLUB DIRECTOR

**Refer to the calendar for specific dates and times.**

*Disclosure of Commercial Support: Dr Sree Koka does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).*

## Registration

These are virtual and live lecture, demo, and peer discussion programs suitable for all dentists, dental students, and business professionals regardless of prior experience who are members of this study club.

Register by contacting

Name: Donna Hiranaka

Email: donna@drhiranaka.com

Phone: 808.322.0202

Please call with any cancellations at least 72 hours before the meeting.

## Disclaimer

Some information or presentations may include controversial materials or commercial references.

Seattle Study Club cautions all course participants that there is potential risk to using limited knowledge when incorporating new techniques and procedures into their practices, especially when the continuing education program has not provided them with supervised clinical experience in the techniques or procedures to ensure that they have attained competence.

## Substitutions

This brochure represents the speakers/programs established at the time of publication; however, speaker cancellations occasionally occur for reasons beyond our control. In the event of such an occurrence, speaker/program substitutions may be made without prior notice.

## Electronic/Virtual Education

Participant feedback and interchange with instructors will be facilitated through e-mail and live Q&A for all sessions hosted by Seattle Study Club. For recorded sessions, directors will facilitate group discussion with club members.

## Code of Conduct

We are committed to ensuring a safe and respectful meeting environment that is free of harassment, bullying, or offensive comments and/or behavior toward others. We expect all participants whether attending live or virtual sessions to abide by this Code of Conduct policy on all online platforms, or in venues at a meeting, including ancillary events and official and unofficial social gatherings.

- Exercise consideration and respect in your speech and actions.
- Refrain from demeaning, discriminatory, or harassing behavior and speech.

## Up to 37.5 Credits Available

This activity has been planned and implemented in accordance with the standards of the Academy of General Dentistry Program Approval for Continuing Education (AGD PACE) through the joint program provider approval of Seattle Study Club, Inc, (Nationally Approved) and Hawaii Interactive Peer Practicum (Locally Approved). Seattle Study Club, Inc, and Hawaii Interactive Peer Practicum are approved for awarding FAGD/MAGD credit.

The current term of Seattle Study Club, Inc, approval extends from 10/1/2015 to 9/30/2027. Provider ID# 300136

The current term of Hawaii Interactive Peer Practicum approval extends from 9/1/2019 to 8/31/21. Provider ID#343900

Hawaii Interactive Peer Practicum  
Locally Approved PACE Program Provider for FAGD/MAGD credit.  
Approval does not imply acceptance by  
any regulatory authority or AGD endorsement.  
9/1/2019 to 8/31/2022.  
Provider ID# 343900
